

Educational Tour / Visit

1. Name of Department: **Community Medicine**
2. Name of teachers accompanying students: Dr.A.R.Mhetre & Dr.N.M.Shaikh
3. Day/Date: 16/08/2018 (Thursday) Number of students: **96**
4. What the tour/visit is about – **An overview:** The student has to be well conversant with the national health problems of rural and urban areas, so that they can be assigned responsibilities to play an effective role not only in the field of curative but also preventive and social medicine. The visit to Katraj Milk Dairy aims to create awareness regarding prevention and control of food borne diseases
5. Aim and Objective of tour /visit:
Aim: To acquire knowledge regarding prevention and control of food borne diseases
Objective: To observe Pasteurization of milk and Microbiology Tests of quality of Milk and its hygienic process.
6. Prerequisites – What knowledge the students must know before going to tour / visit: The students must have adequate knowledge about Pasteurization process and food borne diseases prevention and control. They are asked to read the topic from the books before attending the field visit.
7. How it is organized: The department takes the requisite permission for the visit from the Manager of milk dairy by submitting a request letter on the College letter head with the permission of Principal. The permission when granted, on that date all students are asked to report accordingly in Katraj Dairy.
8. Approaches to teaching / learning and assessment: The department takes feedback report from the individual student after the field visit and necessary points of learning is evaluated. The feedback report is then written by the students in their journals.
